**Aerospace Studies (A.F.R.O.T.C.)**

The cooperation of the University of Hawai'i at Manoa (UH) makes it possible for Chaminade students to participate in the Air Force Reserve Officer Training Corps (A.F.R.O.T.C.) program. Chaminade grants credit for this program and includes it in grade point computation.

Aerospace studies (AS) is part of the Air Force Reserve Officers Training Corps (AFROTC) Program. This program offers the chance to hone your time management, physical fitness, and analytical skills – and help you push yourself to achieve your goal. Men and women who successfully complete all requirements are commissioned as second lieutenants in the U.S. Air Force. They then serve on active duty or may, in some cases, obtain educational delay for graduate studies. Two and a half-, three-, and four-year program options are available.

The program is divided into two phases, the general military course (GMC–freshman and sophomore years) and the professional officer course (POC–junior and senior years). The first two years of the AFROTC program consist of one hour of classroom work and two hours of leadership lab each week. The GMC is an opportunity for students not on ROTC scholarship to try out the program with no obligation. You can only enter the POC once you have successfully completed the GMC and field training. The POC conduct the leadership labs and manage the unit's cadet corps. Once you are enrolled in the POC you are enlisted in the Air Force Reserve and assigned to the Obligated Reserve Section. This entitles you to a monthly \$450-\$500 nontaxable stipend.

Students who have participated in JROTC or have had more than two months of active duty may have a portion or all of the GMC waived. Between their sophomore and junior years, students will attend an all expense-paid, four-five week field training at Maxwell Air Force base in Montgomery, AL.

Expense-paid Air Force incentive programs and specialized Airmanship training programs are offered to qualified candidates during the summer terms. All interested candidates may receive free flight indoctrination through a local Civil Air Patrol/AFROTC sponsored program. You may also qualify to do a foreign language immersion in various countries around the world.

In addition, various four-, three-, and two-year scholarships covering tuition, fees, \$900 annual for books, and up to \$500 monthly stipend are available on a competitive national basis to candidates in academic majors the Air Force aligns to "critical" career fields. Current examples are computer, environmental, and electrical engineering, foreign languages and nursing.

Interested students may obtain information from the admissions office at the AFROTC building on the University of Hawaii at Manoa lower campus, or [www.afrotc.com](http://www.afrotc.com)
