The Hogan Entrepreneurial Program welcomed COL Crissy Gayagas, President of First Canoe Consulting, to our Wednesday night speaking engagement. She spoke in depth about leadership styles and what she learned works best in aspects of her professional and personal life experiences. One particular pearl of wisdom that she emphasized and wanted us to walk away with was her definition of the entrepreneurial individual: “[they] have foresight, courage, wisdom, and are willing to collaborate with other leaders to provide a better way or better solution to achieving a goal or producing a result.”

The logo for Hogan Entrepreneurs features a stylized blue 'H' with a swoosh underneath, followed by the word 'Hogan' in a serif font and 'Entrepreneurs' in a sans-serif font below it.
